Kirill Kovalevski

Junior QA Engineer | Manual & Automation Testing
kirill.kovalevski.qa@gmail.com | LinkedIn | GitHub | Portfolio

- ❖ Built a **practical e-commerce automation project** with 50+ UI/API tests and a modular test framework.
- ❖ Designed and executed **123 FreeTV** test cases and **65 KSP** test cases, with documentation and risk assessment.
- ❖ Identified and documented an **OTP security concern**: verification codes remained valid for over 60 minutes.
- ❖ **Fluent** in Hebrew, English and Russian; proficient in French and Italian.

Selected Projects

Sylius – QA Automation Project | Web · REST API · Python · Playwright · Pytest | View the Sylius project

- ✓ Developed a **modular automation framework** with **Page Object Model,** Pytest fixtures, DDT, Allure and Git.
- ✓ Covered product, authentication, cart and **checkout scenarios** with UI/API tests and negative cases.
- ✓ Implemented a Requests-based API layer; validated HTTP responses and JSON, and documented demo-environment failures.

FreeTV – End-to-End Manual QA Project | iOS · Production Environment · API | View the FreeTV Project

- ✓ Prepared SRS, STP, STD and STR: **123 test cases** covering 36 functional and 19 non-functional requirements.
- ✓ Documented an **OTP security finding** and inspected API traffic using Postman and Fiddler; tracked defects in Jira.

KSP – Web Application Manual Testing | Web · Production Environment | View the KSP Project

- ✓ Executed 65 test cases: 48 passed, 15 failed, and 2 not run; prepared STD, STR and an RTM.
- ✓ Analyzed search, product, and cart defect clusters; delivered a **Conditional Go** recommendation and regression priorities.

Education & Training

- ❖ 2025–2026: **Professional QA Training** | The Automation College – Gal Matalon

Manual Testing · Page Object Model · Python · Playwright · API · SQL · API Testing

- ❖ 2018–2022: **B.A. in English Literature & Romance Studies** | The Hebrew University

English Language & Literature · French · Italian

Technical Skills

- **Automation**: Python | Playwright | Pytest | POM | Fixtures | DDT | Faker
- **API & QA Tools**: Requests | REST API | HTTP | Postman | Fiddler | Jira | TestRail | Allure
- **Data & Tooling**: SQL | MySQL | JSON | XML | Git | GitHub | PyCharm | DevTools
- **Test Design**: BVA | EP | Decision Tables | State Transitions
- **QA Methods**: Agile / Scrum | SDLC / STLC | E2E | Regression | Negative | Risk-based
- **Docs & Platforms**: SRS | STP | STD | STR | RTM | Windows | iOS
- **AI-assisted QA**: Test design | Defect analysis | Debugging | QA reports

Work Experience

2024–Present: Emergency Response Security Officer — HCT, South Port

A role demanding strict adherence to procedures, focus under pressure, and clear standards — skills that translate directly into accurate test execution and documentation.

2022–2024: English Teacher — Burlington English

Developed the ability to explain complex processes in a clear, structured way — directly applicable to writing QA documentation and communicating with development teams.
